GOLDBUGS GET IN THEIR WORK

Electioneering Scheme of Closing Down Mills.

WILL FAIL OF ITS PURPOSE

MANUFACTURERS HELPED OUT BY THE TRADE REPORTS.

Past Week as Compared With the Same Period of a Year Ago-Clearing House Figures Show Some Encouragement - Chicago, Omnha and Kansas City Live

New York, June 26 .- R. G. Dun's days. weekly review of trade, which issues tomorrow, will say:

The monetary outlook is not yet The monetary outlook is not yet clear. The strenzth shown in recent conventions by advocates of free sliver coinage, and the expectation that all the elements favoring that policy may yet be concentrated, incline them to a waiting attitude. Their uncertainty retards improvement, notwith-standing the more widely prevalent feeling that the monetary action at the St. Louis convention will be sustained by the people.

But many mills have waited as long as they can with safety, and signatures have been given by enough cotton mills of Fr II River to ensure a temporary stoppage, it is stated, the nature of which is now under discussion in conference with the Providence manufacturers. Meanwhile the Pacific of Lawrence and the Maumkeug, of Salem.

s an eighth lower for spots, though less for futures, have full explanation in decidedly good crop prospects. Returns of harvesting thus far support the best estimates as to wheat, and the condition of cotton had been decidedly improved by rains.

Wheat receipts at western ports have been 2,6%,6% bushels against only 787,291 last year, and for the three weeks past, 2,551,278 against 2,554,000 last year, and while Atlantic exports have sharply increased, amounting to 7,867,5% bushels, flour included, against 4,943,48% for three weeks of June last year, there is no reason to doubt regarding the sufficiency of supplies. The hay crop has also been exceedingly good at the week. It is not wholly a well-come, but a necessary conclusion, that prices for the great staples are not likely to be higher.

The great combinations, which the Iron Age wisely reasons, tends to disastrously low prices hereafter, still control the markets, both for material and fluished products of iron and steel, though it is reported that lower prices will soon be made for coke, owing to better utilization of hye-products, and for nails, owing to the heavy decrease in consumption.

The billet pool reports no larger sales

but middlemen or outsiders continue to underseli it. Bessemer pig is a shade lower at \$12.25 at Phttsburg. The textile manufacturers, as has been said.

are generally devising curtailment of production and the only change of prices is downward. Sales of wool bave been 12,855,600 pounds for four weeks, of which 16,132,465 were domestic.

Failures for the week have been 21 in the United States against 256 has year and 24 in Canada against 22 has

BANK CLEARINGS.

today was practically monopolized by the industrial shares. Sugar led the market and figured for over one half of the aggregate dealings.

The railway list was practically neglected, but was mildly irregular.

The general market opened a shade higher all around and was helped by improvement in the London market and a moderate foreign inquiry for the international shares. The weakness in the industrials soon checked the rising tendency and concessions occurred which carried prices a shade below yesterday's closing figures. In the last hour covering caused a raily to a fraction above last night's final sales.

Railway bonds were irregular, with an easier tendency in the speculative issues. The losses maded were mainly fractional, and conspleuous improvements were recovered in a few bonds. The sales were \$25,000.

Government bonds were inclined to say, the new fours reacting '4c. Dealings were \$10,000.

Government bonds were inclined to say, the new fours reacting '4c. Dealings were \$10,000.

CLOSING STOCKS turers Meanwhile the Pacific of Lawturers Meanwhile the Pacific of Lawrence and the Maumkeag, of Salem,
have closed for a time, and practically
all the southern cotton mills will be
represented at a meeting on Monday
with the same object.

Woolen mills are acting without concert, but fourteen are mentioned in
dispatches as having closed this week.
There is no similar movement in other
industries, though the period of summer closing is at hand in many of
them and important controversies as
to wages of iron puddlers and other
hands make it likely that the annual
stoppage in that industry may last
longer than usual.

The weakness of wheat, which has
declined 2:10 cents and of cotton, which
s an eighth lower for spots, though
less for futures, have full explanation
in decidedity good crop prospects. Returns of harvesting thus far support re & Ohio
